There are only 8 trains will be running in total, with limited seats on each train.

Please park outside the station gates in the public car park on the right side of the road towards the township. With a lot of cars expected we need to leave enough room for all.

#### Why are we running these night trains?

Walhalla Goldfields Railway is a not for profit tourism organisation and we rely on funds from these events to improve our infrastructure and services. Our current project is the construction of our DH Locomotive.

This year WGR is donating \$1.00 from each customer's ticket towards the *East Gippsland Farmers Fund* to help struggling drought affected farms to the East of us. WGR also has a donation jar or via EFT at the station for customers to make their own donation.

Thank you for your interest and we hope you enjoy our railway as much as we do!
